MTL™600

The MTL™600 locking system provides you with the superior security you want, and the flexibility your business needs.

Mul-T-Lock is helping secure facilities of all sizes and types, worldwide. With vast experience and proven technologies, we developed MTL™600, a locking system designed to address evolving security needs by combining several technological elements.

Together, these elements create stronger resistance against different forms of lock manipulation and grant you the flexibility you need when your business grows.

MTL™600 complies with international standards, ensuring you enjoy peace of mind when securing your valuable assets.

MULTI-LAYERED PATENTED TECHNOLOGY

Mul-T-Lock develops and designs locking systems to meet the evolving needs of each organization, while prioritizing high-security and technological innovation for secure and reliable locking solutions.

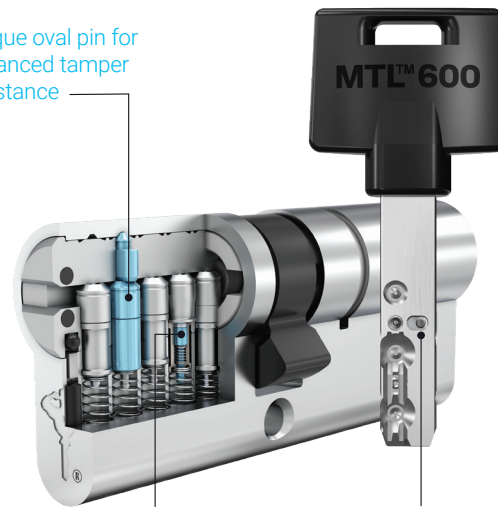

Using advanced, field-proven technology, MTL™600 addresses different security challenges while responding to functional needs.

ENHANCED KEY COPY CONTROL

MTL™600 combines a unique magnetic card and patented key to grant you the key copy control your business deserves.

Unique oval pin for enhanced tamper resistance

10 telescopic pins tumbler mechanism for a robust internal structure

A patented floating element for extra key control and pick resistance

FLEXIBLE AND CONVENIENT

Balance control and convenience with a key system that responds to a wide variety of needs, even as they change.

The MTL™600 platform is available in different formats and product types, including a wide range of cylinders, padlocks and locks, providing you with the security and flexibility your business needs.

MASTER KEY SYSTEMS CAPABILITIES

Mul-T-Lock's Master Key Systems are smart, scalable and super-effective keying solutions. MTL™600-based Master Key Systems provide organizations with seamless access control while economizing on the number of keys in circulation. Its robust MKS capabilities are designed to scale as your business' locking needs grow and evolve.

Mul-T-Lock's MKS Design tool and MASTERpiece software enable you to enjoy an unmatched technological product. Our professionals will help you design, build and maintain a highly effective and efficient system that ideally suits your needs, providing you with ongoing expert support throughout the installation and implementation process.

With the help of Mul-T-Lock's specialists and our MASTERpiece software, you'll be able to leverage a uniquely designed locking system to meet your facility's every need.
